Mr. D. C. Corkill
Georgia Pacific Corporation
P.O. Box 68
Sigurd, Utah 84657

Dear Mr. Corkill:

Re: Reclamation Bond, M/041/009, Georgia Pacific Gypsum Quarries,
Sevier County, Utah

Attached is the reclamation bond estimate for Georgia Pacific's gypsum quarries. The total reclamation cost is estimated to be \$88,800 for a five year bonding period and \$122,100 for the projected life of the mine. Georgia Pacific can post the bond for either amount. A life of mine bond will be reviewed and adjusted by the Division as necessary, but this review is usually less frequent than the review which occurs with a five year bond.

The bond should be submitted to the Division no later than May 1, 1988. A newly approved bonding policy and the necessary bonding forms are enclosed.

I was happy to hear that you have started to reclaim some of the older mined out areas this last fall. I recommend that you keep us informed of your progress as you reclaim additional areas in the future. We would be happy to assist you in evaluating the success of various reclamation techniques and we will reduce the total bond amount as areas are successfully reclaimed.

Please contact me or Frank Filas of my staff if you have any questions or need additional information.

Sincerely,

Lowell Braxton, Administrator
Mineral Resource Development
and Reclamation Program
